

Revealing the Feelings Game

Communication is so much more than just words. As a family or with friends, use your detective skills to decipher the emotions your partner is communicating through body language, tone of voice, and facial expressions. How many emotions can you collect!?

Set up

- Cut out the emotion cards.
- Shuffle the cards and make a pile of 10 face down.
- Divide equally into 2 teams.
- Get a timer that can count down one minute.
- Team with the youngest member goes first.

Directions

- Team 1 starts and chooses a person to be the 'actor'.
- Read out the rules for Round 1 and start the timer. The actor draws a clue then, following the round's rules, tries to get their team to guess the clue.
- There is no limit to the number of guesses a team can make. Once they guess right the actor takes another clue.
- Keep drawing and guessing until the time is up, add a point for each correct clue. If you are left with a clue that wasn't guessed place it back on the pile.
- Now team 2 chooses an actor and does the same. Take turns being the actor. When all the clues in the pile have been guessed the round is over.
- Now shuffle the 10 cards into a pile and read out the rules for round 2. Team 2 goes first this time.
- Play until all the clues have been guessed, tally scores, and shuffle the cards again.
- For round 3 the team with the fewest points goes first. Play until all the clues are guessed, tally the points, and declare a winner!

Round 1: Tone of Voice

Use words and tone of voice to describe the emotion.
Don't say the emotion!

Round 2: Facial Expressions

Act out the emotion with just your face.
No movement or talking!

Round 3: Body Language

Act out the emotion with your body.
No facial expressions or talking!
